```sql
    iia as (
        select
            ii.seq_id,
            (case
                when disk_archive_id is null then 0
                when disk_archive_id is not null then 1 end)
            as has_archive_id
        from index_illumina ii
    )
```
